Interview with a Vampire is a gothic horror movie , based on the Anne Rice novel of the same name. The story is set in 1791 when Louis was turned into a Vampire by Lestat and it follows, Louis journey into the 20th century.

My vision for the redesign is to model it into a medieval fantasy setting of Games of Thrones. Where Lois and Lestat are of noble born heritage. The complexion of their faces will still be pale and the hair kept long.
